

Good Angels

A Message from Care to Help's In-Country Manager

Dear Friends,

I welcome this opportunity to say hello to everyone in the Care to Help family.

Under your support, Care to Help has helped thousands of people in need in Vietnam for six years! There are no words to say how much they thank you. The ethnic minority people tell me that Care to Help must be good angels. That is what they call you when I talk to them about you. If you come and see the grateful smiles and gratitude in their eyes, then you can't keep dry eyes!

At the Friendship schools built with your kind donations, children who had no chance for schooling before, attend classes for free. Their families know that knowledge is the key to a better life, and Care to Help is allowing them to have a valuable life.

I am a very lucky man. My life has become meaningful in my Care to Help work. I have great honor in doing this work and I am moved. . . I do not have the words. I am very grateful to all of you.

I hope you think your money is wisely spent in the best way. Let's keep working together. Please continue to support us—we can't do good deeds without you.

Your friend,

Việt Hùng

Viet Hung Nguyen
